Report on
Two-Day Workshop on WaveMaker Platform
Organized by Dept. of CSE-MITS
20 - 21 November 2015

Submitted by: Mr. B. Krishna Sagar, Asst. Professor, Dept. of Computer Science & Engg.

Department of CSE organized a **Two-Day Workshop on "WaveMaker Platform"** for the Faculty of MITS and Students on 20th and 21st November 2015. The main aim of this workshop is to enhance the skills of faculty members and students in the new platform. The session started with the inaugural function by Dr. C. Yuvaraj, the Principal, Dr. M. Sreedevi, HoD of CSE and Mr. J. Saravanababu, Senior Placement Officer.

WaveMaker is a private aPaaS (application Platform-as-a-Service) software for building and running custom apps. Wave Maker provides Rapid API App Development & Deployment to quickly build enterprise – grade multi- device apps, and leverages Docker containerization for an app-optimized infrastructure.

The Resource Person Mr. Ram Shankar from Pramathi Technologies presented a very good session which was appreciated by all the participants. The session ended with the distribution of certificates to all the participants by Vice-Principal (Academics) Dr. B. Rama Kumar and the Resource Person.
