

MADANAPALLE INSTITUTE OF TECHNOLOGY & SCIENCE (UGC - AUTONOMOUS)

Report on One Day National Level Technical Symposium & Project Expo 'ECLECTICA 2015' Organized by Department of ECE - MITS 31 March 2015

Submitted by: **Dr. Gautam Narayan, Associate Professor, Dept. of ECE**

ECLECTICA 2015 a one day National Level Technical Symposium was held on **31st March 2015**, organized by Department of ECE, Madanapalle Institute of Technology & Science with full support from the college management. This event included full-length research paper presentation conducted in 6 parallel tracks along with a project exhibition and poster presentations. This symposium cum project expo aimed at bringing out the best from students in displaying their theoretical and practical skills in different areas of electronics and communication engineering. At the same time, another goal of this event was to ensure that students get abundant exposure to the latest developments in the field of electronics and communication engineering.

Dr. T Ramashri, Professor, ECE Department, College of Engineering, S V University attended as a Chief Guest. She delivered a keynote address on the importance of professional education and making use of opportunities coming across the way of the students during their 4 years. She also stressed upon the need to hone ones communication skills irrespective of background of the student. She later released the symposium souvenir. Judges for the program **Dr. B Polaiah**, Professor, Department of ECE, Sree Vidhyanikethan Engineering College and **Dr. G Chenchu Krishnaiah**, Professor and Dean, Gokula Krishna College of Engineering, released the department newsletter POSITRON 2K15.

The department has received **170 papers** and 100 best papers were selected for full length presentation and 35 poster presentations. Twenty one teams from various colleges have exhibited their projects. A total of **248 students** have registered (135 students from other colleges and 113 from MITS) and participated in various events. Participation certificates were given at the end of the sessions. The valedictory function started at 4:45 PM with the judges **Dr. B Polaiah and Dr. G Chenchu Krishnaiah** addressing the gathering. Students from other colleges gave an excellent feedback about the hospitality and arrangements made by the student volunteers. Prizes were distributed to the winners of various events.

New app for the benefit of society sought

DC CORRESPONDENT TRIPATHI MARCH 31
Dr. T. Ramasethi, professor, Department of Electronics & Communication Engineering of S.V. University, Tirupati, called upon the engineering students to develop applications which will be useful for the betterment of the society. She stated how the technology is developing day by day to assist the people in knowing the information quickly through applications such as WhatsApp, Social Network site - Facebook, Messages and SMS. She was addressing a one-day national technical symposium & project expo held under the auspices of the Department of Electronics & Communication Engineering of Madanapalle Institute of Technology & Science at Madanapalle on Tuesday. She underlined the importance of VLSI, embedded systems, communication engineering and micro electronics in the present scenario. Prof. Ramasethi informed that the state and central governments are coming forward to provide financial assistance for encouraging researchers for their innovative ideas in the field of electronics and communication engineering. She added that students must plan properly to work together based on requirements of the industry. She suggested the students to focus on and setting, team work, social responsibility, communication skills so as to become successful in this competitive world. She appreciated the students for presenting new research papers based on the technological advancements that are taking place. As many as 200 students from various engineering colleges across the nation participated in this symposium. Dr. Pabish and Dr. Chenchu Krishnamoorti acted as the jury members for the paper presentation sessions. Dr. C. Yessuri, principal, MITS, Dr. A.K. Boddly, coordinator and HOD of ECE Dept, MITS, Dr. Gowtham Narayan, consultant, faculty and students of MITS took part in this symposium.
