Report on
Awareness Program on
Global Warming
8 March 2017

Submitted by: Dr. Satheesh Kumar Natraj and Mr. Ragunath, Assistant Professor, Department of Electronics and Communication Engineering

A one day awareness program on **Global Warming** was conducted in MITS organized by Electronics and Communication Engineering department on 8th March 2017.

The resource person was Mr. Prashanth Naidu, Social welfare/ Entrepreneur, Madanapalle. The resource persons gave an speech about the importance of maintaining the Environment. He also initiated different sectors around the world are contributing towards creating awareness about global warming. The film media is one of the most effective as well as popular media around the world. The film media is doing constructive work of awareness regarding global warming in various parts of world. They explained that six-sigma is a tool to improve any process, this tool was developed by Motorola and implemented by GE on an industrial scale. Six-sigma is a scientific tool which is used to identify and remove errors from any process, in any industry. Thus six sigma is of great importance in the pharmaceutical industry, because they operate at the highest quality standards possible in the market, so companies had to move towards implementation of six sigma/Lean six sigma, in order to maintain quality and quantity. Pharmaceutical industries are using these tools to improve, research fields, QA/QC processes and streamlining the manufacturing and marketing processes.

He also requested the management to take form students club and plant trees.
