Report on
Guest Lecture on “Industry Expectations from Young Engineers”
Organized by Dept. of EEE & IIC Cell - MITS
19 March 2016

Submitted by: Mr. G. Ravi Prakash, Asst. Professor, Dept. of Electrical & Electronics Engg.

A One-Day Guest Lecture on “Industry Expectations from Young Engineers” was organized by the department of Electrical & Electronics Engineering under ISTE student chapter on 19th March 2016 in coordination with the Industry Institute Interactive Cell (IIC) and sponsored by TEQIP-II

Mr Sreenivasa Ramanujam K, Academic Relationship Manager, Karnataka, TCS, Bangalore, was the Resource Person for this guest lecture. Dr. Ch. Rama Prasad Rao, Dean - IIC and Mr. G. Ravi Prakash, Assistant Professor, Dept. of EEE introduced the delegate to the students in the DH-2 Southern Block.

The lecture started at about 10:30 am on “Industry Expectations from Young Engineers” to the II year B. Tech EEE, CSE, II year MCA students. During the session, he covered the following points:

- Communication skills
- Knowledge beyond the text books
- Ability to lead
- Positive Approach
- Updated with latest technology
- Knowledge of foreign languages
- Ability to multitask
- Versatility
- Ambitious
- Dos and don'ts in a interview

He has explained students with different case studies based on his industry expertise. The students gave a positive feedback on the guest lecture and wished to have more sessions like. The delegate expressed his happiness towards the active participation of the students during the guest lecture, and thanked for the support extended by the faculty for making all the arrangements, infrastructure of the institute, cooperation among the faculty members and active support of the management.
