Mr. N. Ramanan, Senior Engineer, CAE Analyst, R&D Department, M/s. Sharada Motors Private Limited, Maraimalai Nagar, Tamil Nadu visited MITS and delivered a guest lecture on Academic Engineer Vs. Industrial Engineer to the III B.Tech Mechanical Engineering students on September 8, 2017, organized by the Department of Mechanical Engineering, MITS.

This talk helped the students to know about the present requirements of company recruitments. Mr. N. Ramanan highlighted his talk on “What Employers Want in College Grads” and “When considering a job offer, what new graduates look for”. He introduced product design and development concepts to the students and also the industrial practices of FEM using ANSYS as an analysis tool. The discussion ended with some case study of the critical finite element analysis components, and the current research area in the field of automobiles. He also mentioned about the importance of the professional courses and the expectation of the society from the budding engineers.
